
(a) learning curves
average_loss (rolling mean, 200 steps)
thousand steps
true labels
random labels
shuffled pixels
random pixels
gaussian
(b) convergence slowdown (train acc >= 0.98)
time to overfit (relative to p=0)
label corruption
Inception
AlexNet
MLP 1x512
(c) generalization error growth
test_error
label corruption
Inception
AlexNet
MLP 1x512
Hollow markers: run did not reach the convergence threshold (b: lower bound; c: final-step values).
